

National Mortgage Professional Magazine

Presents

Top Mortgage Employers

National Mortgage Professional Magazine is proud to announce its annual list of Top Mortgage Employers.

We polled our readers about their employers based on the following criteria:

 Compensation

 Corporate culture

 Training resources

 Speed

 Long-term strategy

 Industry participation

 Marketing support

 Day-to-day management

 Innovation

 Technology

 Internal communications

Based on the above criteria, we weighted factors that are more important to our readers (i.e. our readers told us that factors like corporate culture was considerably more important to them than speed of company).

The resulting responses created the Mortgage Employer Company Score (MECS).

We have broken down the results into national and regional categories.
